

NOVONIX

NOVONIX Institute of Advanced Battery Technology

Future Ready Institute

Prepare for a Career in the Booming Battery Industry

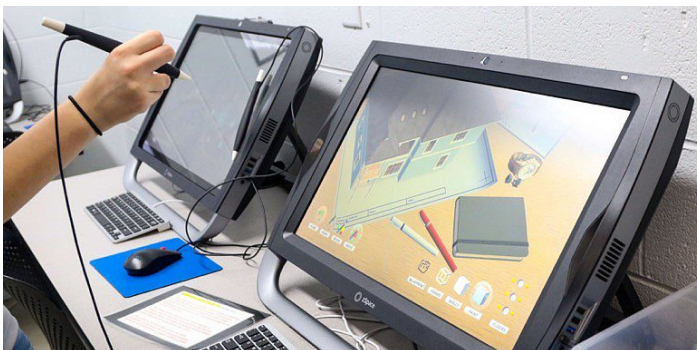

About the Program

Innovative High School Training Program

As part of Hamilton County School's Future Ready Institutes, the NOVONIX Institute of Advanced Battery Technology provides career-focused learning aimed at equipping students with the skills and knowledge they need to succeed in the battery industry and other STEM innovation fields

Located at Lookout Valley Middle/High School in Chattanooga, TN, the high school training program promotes STEM-based learning and a highly specialized technical curriculum with credits counting towards a students' graduation requirements.

Students can expect:

A state-of-the-art interactive classroom

A lab and advanced equipment, like a Scanning Electron Microscope

In-lab training

Safety tutorials

On-job shadowing with NOVONIX employees

An interview with NOVONIX upon graduating
